Program offer

Our programs cover all levels and many fields of study, as well as provide an innovative interdisciplinary approach to the curriculum. You will therefore find the courses you are looking for.

The majority of our courses are offered in French.

The International Relations Office offers a week of intensive French online lessons at the beginning of your stay, led by the International Academy and you can take French as a Foreign Language (FLE) courses during your mobility and obtain 3 ECTS.

But if you choose to study in English, find below our offer:

- International master course in Transportation & Energy
- Bachelor in International Trade & Business Administration
- Some courses of Global Business Bachelor degree

You can also choose to mix your languages in those ISCED:

- Language acquisition
- Business administration
- Engineering

Master course in Transportation & Energy

A 100% international class where theoretical and applied teaching are crossed with scientific projects at INSA Hauts-de-France, our engineering school in the area of transport systems and their energy aspects.

The Master is positioned on 3 axes - aeronautics, automotive and rail - in order to anchor the training in the industrial world in the region but also in Europe.
